Danês Super Premium

Adult and Puppy Dogs

These are Super Premium foods formulated without colorants, with highly digestible animal-based proteins and a special selection of vegetables rich in natural antioxidants, fiber, and energy. They provide dogs with the essential nutrients for safe and healthy growth and development of organs and tissues from the first months of life through adulthood. With enhanced palatability, Danês® Super Premium is already dogs' favorite food.

Danês Super Premium

Neutered Cats

It is a highly digestible Super Premium food containing natural and healthy ingredients in its formulation, with no added colorants. It provides cats with an appropriate balance of protein and energy to help maintain ideal weight and muscle tone. Danês® Neutered Cats Salmon and Vegetables is a complete and essential food for a longer, healthier life for cats..

High biological value proteins

promote the development and maintenance
of the musculoskeletal system.

Selected Vegetable Mix

functional ingredients that provide energy and satiety,
and support digestion and nutrient absorption.

Natural
source of ingredients
